

INTRODUCTION TO ICS

(Will be taught in conjunction with I-200)

I-100

2-4 Hrs

COURSE DESCRIPTION

This course is an introduction to the Incident Command System (ICS). Topics include: introduction to ICS, basic features of ICS, incident commander and command staff functions, general staff function, facilities, and common responsibilities. It provides a foundation upon which to enable entry-level personnel to function appropriately in the performance of incident-related duties.

OBJECTIVES

Orientation to the Incident Command System

TARGET GROUP

Entry-level personnel working on an incident in a direct or support role, as well as off-incident support personnel.

TRAINEE PREREQUISITES

None

COURSE DATES

May 24, 2010

LOCATION

Boise State University

COORDINATOR

Caleb Ashby **208-384-3403**
